

MODNET BARCELONA CONFERENCE

Schedule of November 4

- 9:30 am** ALEXANDRE BOROVIK (University of Manchester).
Generic automorphisms of simple groups of finite Morley rank.
- 10:30 am** Coffee break.
- 11 am** ADRIEN DELORO (Rutgers University).
Small groups of odd type .
- 12 am** ZLIL SELA (Hebrew University, Jerusalem).
Envelopes and Imaginaries in free (and hyperbolic) groups.
- 3 pm** ABDEREZAK OULD HOUZINE (Université Claude Bernard, Lyon 1).
Superstable groups acting on trees .
- 3:30 pm** OLIVIER FRÉCON (Université de Poitiers).
Algebraic groups and abstract isomorphisms.
- 4 pm** ALEXEY MURANOV (Université Toulouse 3).
Independence property and hyperbolic groups.
- 4:30 pm** GUILLAUME MALOD (Université Paris 7).
Countable families for circuit classes.
- 5 pm** Cofee break
- 5:30 pm** JONATHAN PILA (University of Bristol).
Rational points of definable sets and diophantine problems.
